Uniform descriptions: When 'tunic' is used this refers to the standard style of the period with cut away lapels and turnbacks. 'Rifle tunic' is pretty obvious. 'Hat' refers to the standard bicorne/tricorne style of the period, 'round hat' refers to the 'Pilgrim fathers' style of soft brimmed hat, 'Mitre' grenadier caps are the standard tall fronted type of the period. 'Cap' refers to the large number of types of helmets. The Militia types are dressed in a wide variation of the typical civilian style of the period.
