

## Hare Raiser's Announcement made on Sunday 3rd September 2017

I would like to remind everyone that we are the **Isle of Wight Hash House Harriers**. Also that by tradition we are a **Drinking Club with a Running Problem**.

**From this day forth (Sun 3rd September 2017) there will no longer be Two Trails laid by Hares, there will just be one single trail for Runners of all ability.**

Trails will comprise of Checks, Fish-hooks, False Trails, Check-backs and extra trail Loops. All strategically placed to enable the fast runners to achieve a longer Trail, and to be kept in pace with the rest of the pack. There will be short cuts strategically designed and to allow the slow runners to keep up with the Pack.

The term "**Walkers**" will be struck from our trail vocabulary. The Sign "**W**" will no longer be used on a trail.

Some of Hashers are thinking, "**that's how it used to be**" and you would be correct. **We are going forward by going back to the Past**. Learning from our History.

Why make the change? Because your representatives on the Mismanagement committee have clearly and correctly stated that we had grown into a two tier Hash. Runners and Walkers. This had led to two trails needing to be laid and their being **NO** interaction between the two packs.

I support this change, Your mismanagement committee support this change, Your Grand Mattress Support this change. Please support it as well.

I Baldrick, remain your Humble Servant and Hare-raiser.

---

Thanks.
